Relationships and Services

What investment services and advice can you provide me?

We offer flat-fee financial planning and investment advisory services, including financial planning, tax strategy, estate coordination, insurance review, and investment management. We monitor your accounts continuously and meet quarterly.

We offer discretionary investment management, meaning we can buy and sell investments on your behalf without asking in advance. We do not have minimum asset requirements but typically serve households with \$100,000+ in investable assets.

Conversation Starter: "Given my financial situation, should I choose an investment advisory service? Why or why not?"

Fees, Costs, Conflicts, and Standard of Conduct

What fees will I pay?

We charge a flat monthly fee based on your chosen membership tier—ranging from \$250 to \$600 per month. We do not charge fees based on assets under management and do not earn investment commissions.

You may also incur fees from third-party investment products or custodians (e.g., ETFs or brokerage fees), separate from our advisory fees.

Conversation Starter: "Help me understand how these fees and costs might affect my investments." What are your legal obligations to me?

We are fiduciaries. We must act in your best interest and avoid placing our interests ahead of yours.

Do you or your financial professionals have conflicts of interest?

Some advisors are licensed to offer insurance and may receive commissions from insurance products. We disclose this and only recommend products that align with your best interests.

Conversation Starter: "How might your conflicts of interest affect me?"

Disciplinary History

Do you or your financial professionals have legal or disciplinary history?

No. Visit <https://www.Investor.gov/CRS> to research us and our professionals.

Conversation Starter: "As a financial professional, do you have any disciplinary history?"
